

Course: 1029 – Texture 1

LOCKER

Task: Texture the locker mesh.
Worth: 10% of final grade.

Assignment Description

I have provided you with a mesh of a locker. Your task is to texture the model to a comparable level of detail as the objects we textured this week in class. I will be marking how well you incorporate photo textures.

The object is already unwrapped, and I have supplied you with the UV template. So you just need to make a texture.

***The mesh is not to be altered or changed in any way.**

Submission

The homework must be submitted to your sections dropbox.

WARNING: Students who upload late and miss the dropbox will be marked as a 0%

Guidelines

Create one texture in **PNG** format called **LastName_FirstName_Locker.png**

Texture size is to be **1024x1024**.

You do not need to supply the locker mesh, all that I required is your texture.

Communication

Any emails received after 5pm will be replied to the following day.

Additional Information

Missed tests/exams will not be rescheduled without some valid evidence of some important event over which the student has no control (e.g., Court appearance, death in the family). Missed tests or exams, therefore, can receive a zero. The students are advised to notify the professor prior to missing the test.

Students are expected to hand in all assignments to the course instructor on the due date, and all assignments must be submitted in the format specified by the instructor (e.g., on FOL, in printed form, on a specific lab computer, etc.); assignments will not be accepted in any format other than that specified.

Late assignments will not be accepted, nor will make up test or assignments be permitted, without some valid evidence of some important event over which the student has no control (e.g., documented illness, death in the family). Missed tests or assignments, therefore, will receive a mark of zero. Late assignments and make-up tests will only be permitted following the submission of adequate documentation acceptable to the instructor (e.g., a doctor's note). Students are advised to notify the instructor prior to missing an assignment due date or a scheduled test.

Immediately upon return from an illness/absence in which a test or assignment has been missed, the student is responsible for contacting the course instructor to discuss the problem. The instructor will make arrangements for any student deemed eligible. The alternative test/assignment will be of equal value to the one missed with no grade penalty. The timeline and due dates will be determined by the course instructor.

Plagiarism (e.g., failure to acknowledge sources used, submitting another student's work under your name, or producing work for another student to submit) is a serious academic offence that shall result in appropriate penalties, to be determined at the discretion of the course professor in consultation with the chairperson of the Communication Arts division. The penalties shall range from failure of an assignment to possible failure of the course. Students shall not make the assumption that any provision will be made by the professor to permit the student to rewrite or redo failed assignments.
